

HRER Covid 19 Policy, 2022 Season

Since 2020, your Board has been monitoring the various stages of the pandemic as its effect in Ontario has fluctuated, leading to constantly changing levels of Government restrictions.

We have followed all the health and safety requirements in the past and will do so in the future. Current restrictions are at a low level but could change again in the future.

Due to the make up of our membership (mainly seniors) we will expect that all Ryders, both members and guests, will have been vaccinated.

When we have an 'Event' indoors we will follow any extra protocols required by that specific location and will advise members in advance.

If we all take reasonable care and show respect for one another, then we can look forward to a safe and fun season.
